Mobile: +91-8077372453

SKILLS

Languages: C++, Java, JavaScript, C, PHP, Python
Frameworks: HTML and CSS, Bootstrap, Tailwind, NodeJS, React
Tools/Platforms: MySQL, MongoDB, Git and GitHub, Vs code
Soft Skills: Critical Reasoning, Accountability, Effective Communication

PROJECTS

Health Web-App – Community Health Platform | GitHub — Apr' 25

- Developed a responsive web application to support health and wellness initiatives, enabling users to access health resources, information, and tools.
- Created clean, user-friendly UI using HTML, CSS (Tailwind CSS), and JavaScript, ensuring smooth navigation and a modern look across devices
- Implemented core backend functionality with PHP, handling user accounts, data management and secure interactions.
- Delivered an intuitive and efficient user experience through organized structure, responsive design, and seamless front-end and back-end integration.
- Strengthened full-stack development skills by building an end-to-end web solution.
  Tech stacks used: HTML, Tailwind CSS, JavaScript, PHP, MySQL

Zentry – Responsive Multi-Section Web Platform | Live — Apr' 24

- Built a modern, responsive web platform showcasing multiple sections with smooth navigation and interactive UI elements.
- Designed clean and visually appealing layouts using HTML, CSS, and JavaScript, ensuring consistent performance across devices.
- Implemented structured page flow, reusable components, and optimized assets for fast loading and seamless user experience.
- Delivered an engaging, user-friendly interface with organized content presentation and intuitive interactions.
  Tech stacks used: HTML, CSS, JavaScript

TRAINING

Cipher Schools — Jun' 25 – Jul' 25

Data Structures Algorithms

- Gained fundamental knowledge of data structures and algorithms, including arrays, linked lists, stacks, queues, sorting, searching, and time complexity. Strengthened problem-solving and coding efficiency.
- Worked on projects implementing MST algorithms, Disjoint Set Union (DSU), and optimized sorting techniques to solve real-world graph and optimization problems.
- **Tech stacks used**: C++, Data Structures and Algorithms.

CERTIFICATES

Computational Theory | Infosys	Jul' 25
Data Structures Algorithm | Cipher School	Jul' 25
Hardware and Operating System | Coursera	May' 24
The Bits and Bytes of Computer Networking | Coursera	May' 24
Responsive Web Design | Free Code Camp	Dec' 23

ACHIEVEMENTS

Solved 100+ problems on LeetCode, Improving problem-solving and DSA skills.	Oct' 25
Earned silver badge in C++/ Java on HackerRank.	Apr' 24

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.76** — Since Aug' 23

Shri Guru Ram Rai Public School — Dehradun, Uttarakhand
Intermediate; **Percentage: 74** — Apr' 20 – Mar' 22

St. Mary's Secondary School — Dehradun, Uttarakhand
Matriculation; **Percentage: 87** — Apr' 19 – Mar' 20
